WORK WITH DAWN

My work is centered on helping people understand themselves beyond the circumstances, beliefs, fears, and patterns that may currently define their lives. Through intuitive perception, spiritual insight, consciousness-based exploration, evidential mediumship, and personal experience, I help individuals explore the deeper questions: Who am I? What am I experiencing? What is trying to emerge in my life? And what becomes possible when I begin trusting what I know within myself?

Services are available privately, in groups, through classes and workshops, and through speaking engagements.

ONE-ON-ONE SERVICES

Spiritual Consultation with Dawn

60 Minutes | \$150

A private conversation for people seeking clarity, direction, spiritual understanding, or support during a period of awakening, transition, uncertainty, or personal transformation. Sessions may explore intuition, faith, consciousness, relationships, life changes, spiritual experiences, synchronicities, dreams, energetic sensitivity, personal patterns, or questions about your deeper purpose. Rather than telling you what to believe, I help you explore what you already sense and know within yourself. Available in person or online.

Quantum Reading

60 Minutes | \$175

A Quantum Reading explores the energetic and intuitive patterns surrounding your present experience. Instead of approaching your life only through its history, we look at what is happening NOW - the patterns you are carrying, the possibilities you are sensing, the choices available to you, and where your energy may be asking for movement or change. The process follows: Perceive - Recognize - Align - Choose - Create. This service is intended as intuitive and spiritual guidance rather than a prediction of an unavoidable future.

Evidential Mediumship Reading

45 Minutes | \$150

An evidential mediumship session is an opportunity to explore connection with loved ones who have passed. I allow information to arise naturally and share impressions, memories, personality characteristics, relationships, emotions, or other details that may help identify the person being perceived. These sessions are not about proving what someone must believe; they are an opportunity to experience what may emerge through connection.

Quantum Reading + Evidential Mediumship

90 Minutes | \$250

A deeper private session combining two aspects of my work. We begin by exploring you - your present circumstances, energy, questions, patterns, possibilities, and intuitive awareness. The session may then expand into evidential mediumship when connection with a loved one presents itself. This signature service allows the experience to unfold naturally.

Intuitive Faith Guidance

60 Minutes | \$150

For those exploring their relationship with God, faith, intuition, consciousness, and their own inner knowing. This is especially suited for people who feel spiritually connected but may not identify with traditional religious structures or who are experiencing changes in what they believe. We explore the difference between simply believing and beginning to know through experience. The goal is not to give you my faith; it is to help you discover yours.

Spiritual Mentoring

4 Private Sessions | \$550

For individuals who want more than a single session. Four 60-minute private sessions provide time to explore spiritual development, intuitive awareness, personal transformation, consciousness, faith, relationships, life direction, and integration. Sessions can be scheduled weekly or biweekly and include personalized practices or reflections between sessions.

GROUP EXPERIENCES

Private Group Mediumship

90 Minutes | Starting at \$450

Invite friends or family together for a private evidential mediumship experience. I work with the group as information, impressions, memories, and connections arise. Not every participant is guaranteed an individual reading, but the experience is designed to demonstrate how connection and intuitive information can emerge within a shared environment. Recommended for up to 8 participants.

Quantum Group Experience

90 Minutes | Starting at \$450

An interactive group experience exploring consciousness, intuition, energetic awareness, connection, and the possibilities available when we move beyond habitual ways of thinking. Participants are introduced to concepts such as the NOW Field, intuitive perception, energetic awareness, coherence, intention, and conscious choice.

Intuitive Development Workshop

2 Hours | Starting at \$600

An experiential workshop designed to help participants recognize and strengthen their natural intuitive abilities. Participants explore how intuition communicates, how to distinguish intuition from habitual thought, energetic sensitivity, synchronicity, inner knowing, and practical exercises for developing awareness. No previous experience is necessary.

You Are the Prayer

2 Hours | Starting at \$600

A signature teaching experience exploring prayer beyond words. Participants examine intention, consciousness, emotion, faith, coherence, and what happens when prayer becomes something we embody rather than simply say.

You don't simply say the prayer. You become the prayer.

CLASSES & WORKSHOPS

The NOW Field

2 Hours | \$75 per person

Explore the space described as Beyond the Memory and Before the Thought. This class examines how memories and expectations influence our experience and introduces practices for becoming present enough to recognize possibilities that may otherwise be overlooked.

Awakening Your Intuition

2 Hours | \$75 per person

Learn to recognize how intuition may already be communicating with you. Topics include inner knowing, synchronicity, energetic sensitivity, intuitive impressions, dreams, telepathic experiences, discernment, and learning to trust yourself.

Intuitive Faith

2 Hours | \$75 per person

An exploration of faith beyond doctrine. This workshop examines the difference between belief and experiential knowing and invites participants to explore God, consciousness, intuition, Love, inner guidance, and their personal relationship with the Divine.

Human Trinity: Heart - Mind - Soul

2 Hours | \$75 per person

Explore what happens when the analytical mind, emotional heart, and deeper intuitive awareness begin working together instead of competing with one another. Participants learn practical approaches to greater internal coherence and conscious decision-making.

SPEAKING ENGAGEMENTS

I speak about consciousness, intuition, faith, human potential, spiritual transformation, and what can happen when we become willing to question the limits we have placed around ourselves.
